Dear Harold:

It is no figure of speech to say that I have forgotten more about the case than I now still know. Re CEs 133A-133B not explicitly included in CE 2003 property lists and stated by Stovall to be lumped in with "miscellaneous photographs" ——

All this is in your Whitewash I and I have merely wasted time by covering the same ground as if it was new. I had lost all recollection of this point. Luckily, I decided to check the critical literature last night to see what had been said on CEs 133 —— and my face is red.

With apologies ——

Sylvia
